

Burnley School Sport Partnership (BSSP) is based at Blessed Trinity RC College and is made up of 32 Burnley and Padiham Primary schools and 7 High Schools who work collaboratively to offer a service that provides sporting opportunities for young people across the town. In 2016/17 we used 45% of our sports premium funding to buy back into the services of BSSP

BSSP delivers a programme across the following strands:

Raising the standards of Performance through the provision of high quality PE

We have access to a specialist PE teacher from a local high school. (SSCo). The SSCo will work with our school to:

- Develop a plan for PE and sport in our school
- Support us to audit our current teaching
- Team teach with our class teachers to improve their subject knowledge
- Mentor newly qualified staff so they are competent to deliver all aspects of the PE curriculum
- Deliver staff insets and provide training and resources on different aspects of the PE curriculum
- Plan and develop assessment tools which will help track pupil progress

In addition to this we are able to access a wide range of professional learning opportunities delivered by Lancashire County Council PE Advisors and National Tutors from the Youth Sport Trust.

BSSP are delivering a gifted and talented camp, this means that we are able to offer extra support for our most talented pupils through this programme.

Promoting Health and well-being & Tackling Childhood Obesity

Children have the opportunity to access sporting activities and competitions in an informal setting where the emphasis is placed on having fun rather than the success of winning.

BSSP provides our children with training to become playground sports leaders, the leaders then deliver activities and events at lunch time which allow all children the opportunity to participate and get active.

BSSP provides access to resources linked to the National Change4Life programme and other initiatives' to help make our school more active.

We work hard to ensure that we promote positive messages of health and well-being across our school. Additional training will be undertaken provided through our SGO, which will see our Y6 peers and support staff develop their skills to support our C4L school sport club

Increase Participation in Sporting Opportunities

Through the sports partnership we are able to access specialist coaching in a variety of sports including Dance, Gymnastics, Rugby, Tennis and Cricket. The coaches who come into our school are all fully qualified coaches and have links to our local sports clubs. We use these coaches to support our curriculum and to prepare children for competitions by enhancing our after-school sports programme.

Burnley School Sport Partnership delivers a wide programme of competitions from Athletics to Swimming Galas. These competitions link into the National School Games Framework. We endeavour to provide all our children with the opportunity to represent our school whether this be in the cricket team or in a dodgeball team.

How do we measure the impact: To ensure that all our children benefit from this funding it is important that we monitor the impact of buying into BSSP, we will do this by:

Pupil questionnaire, lesson observations, staff survey, monitoring attendance at competitions, monitoring success at competitions, increasing the number of our children that represent our school, increasing the number of children who take part in sporting extra-curricular activities and improving links to local sports clubs

IN 2016/17, OUR
DELIVERY TARGETS
ARE....

96
COMPETITIONS
TO BE
DELIVERED
